

Making International Calls using Pin

1. To make IDD call,

Press 9 + IDD Code + Country Code + Area Code + Overseas Number + # button

Example: "9 018 XXXXXXXXXXXX #"

2. After hearing 2 beep tone, enter the 6 digits IDD pin number followed by "#"

Example: enter 123456, followed by the "#".

Please refer to the link below for the list of Country Code and Area Code.

http://www.starhub.com/voice/starhubinternationalcalls/t_countryaccesscodes.html

"9" - to get an external call dial tone

"IDD code" - use 018 or 008 as we are subscribing to Star Hub

"Country Code" - International code, for example Singapore is 65

"Area Code" - depending on the country if applicable

"Overseas number" - your overseas contact number

"#" - to do immediate dial to shorten the waiting time
